

# DuraTap™

## Test Sieve Shaker

(Sieves, Pans & Covers must be ordered separately)

### Built to Take a Beating.

Answering the call for a heavy-duty test sieve shaker, Advantech proudly offers the DuraTap. With your requirements and budget in mind, this unit is designed to succeed where others fail.

Gone are the days of needing to buy “accessory packs” of repair parts for expected breakdowns like other sieve shakers require — DuraTap doesn’t use typical plastic and wear-surface parts. This industrial-strength unit is engineered with appropriate, rugged steel and alloy materials ready to withstand the everyday, harsh duty cycles. We even provide grease fittings that ensure longer life for your bearings.

Each unit is “burned in” and run continuously for over half a day, guaranteeing performance right out of the box.

### Pricing

Model DT168 (110vac/60Hz)	For 8" or 200 mm diameter sieves
